

HRM Research Internship: Initial Plan **

Please indicate which of the five skills are to be developed during the research internship experience (at least three of the following skills are required). Indicate activities planned to allow skill development.

Please choose 3 skill areas ():

SKILL	PROPOSED ACTIVITIES
Proposal or Project Development <input type="checkbox"/>	
Appropriate Selection or Development of Measurement Tools <input type="checkbox"/>	
Data Gathering <input type="checkbox"/>	
Data Analysis (and computing) Skills <input type="checkbox"/>	
Communication of Research Findings <input type="checkbox"/>	

In addition, all students are expected to develop skills in project management as part of the internship.

Start Date of Research Internship:	
---	--

Date Signed:	

** Students are normally expected to meet the research internship requirement during the first academic year. The research internship requirement must be met in order to graduate unless the student has requested and received an exemption. Students exempted from the research internship are expected to take an extra half course.

Please return this form to Lorraine Carroll (carrl@mcmaster.ca) in HSC 2C1.
